

## Bye Week

If your team has a bye week you have the following options:

- 1) You can use your average score from your team at the time of the bye. There must be least three scores in the system to find your average. Therefore, teams who have a bye in the early weeks of the season will not have their score calculated until three weeks of play have occurred.
- 2) You can play alone and use your actual score for the night. This also makes your team eligible for the weekly prize money.
- 3) Invite guest to play that week so that non-members or members who don't play in the league get a chance to join in on the fun of Wednesday nights. Remember, all non-member guests must play greens fees. If you still have played your regular team against a team of guests, you can use your actual score for the night. Otherwise, you'll get your average score.

## Sub List

If additional subs join the league, they will be posted on the website.
